

NDV-8504-R Fixed dome 8MP HDR 3.9-10mm PTRZ

FLEXIDOME IP indoor 8000i

The FLEXIDOME IP indoor 8000i - 8 MP series camera offers a 1/1.8" sensor, starlight and High Dynamic Range at 4K ultra HD resolution. It provides highly detailed images even in challenging conditions. The camera's remote commissioning functionality makes sure installation and commissioning can be done in very little time. Using a PC or a mobile device with the Bosch Project Assistant app, you can pan, tilt, roll and zoom (PTRZ) and point the camera to the required field of view with a single click - without ever having to touch the camera or lens.

Functions

Full Remote Commissioning

Installing a professional IP video surveillance camera has never been so easy. In fact, as an installer, you'll never want to go back to the old methods of installing cameras again. We've simplified the installation and commissioning stages to such a degree that they can be done in very little time.

With the FLEXIDOME IP indoor 8000i camera's remote commissioning functionality there's no need to go up and down ladders. Using a PC or a mobile device with the Bosch Project Assistant app, you can pan, tilt, roll

- ► Motorized Pan, Tilt, Roll, and Zoom (PTRZ) to set the required field of view, without having to touch the camera or lens allows for remote configuration and commissioning
- ► 1/1.8" 4K UHD sensor and starlight technology to provide highly detailed images even in extreme low-light situations
- ► High Dynamic Range to see every detail in both bright and dark areas of the scene
- ► Built-in Intelligent Video Analytics with object detection to trigger alerts and quickly retrieve data with the highest levels of reliability
- ► Camera Trainer to train the camera to recognize user-specified target objects for both moving and non-moving objects

and zoom (PTRZ) and point the camera to the required field of view with a single click - without ever having to touch the camera or lens.

Remote configuration and commissioning can also be done at a later stage once all cameras have been installed. Simply connect to the camera remotely via the network using the Bosch Project Assistant app, the camera's web interface, or the Bosch Configuration Manager.

Fast performance

The high sensor resolution together with a frame rate of 30 frames per second makes this camera an ideal solution for capturing fast moving objects in high detail and, at the same time, providing situational awareness.

Starlight performance

The latest sensor technology combined with the sophisticated image processing and noise suppression results in an exceptional sensitivity in color. The low-light performance is so good that the camera continues to provide excellent color performance even with a minimum of ambient light.

High Dynamic Range

The high dynamic range mode is based on a multiple-exposure process that captures more details in the highlights and in the shadows even in the same scene. The result is that you can easily distinguish objects and features, for example, faces with bright backlight. The actual dynamic range of the camera is measured using Opto-Electronic Conversion Function (OECF) analysis according to IEC 62676 Part 5.

Scene modes

Nine configurable modes are provided with the best settings for a variety of applications. In one click fully optimized image settings can be selected to suit the conditions. Different scene modes can be selected for different situations such as traffic or retail environments.

Intelligent streaming

Smart encoding capabilities, together with Intelligent Dynamic Noise Reduction technology and analytics, reduce the bandwidth consumption to extremely low levels. Only relevant information in the scene, like motion, or objects found with the analytics, need to be encoded.

The camera is capable of quad streaming which allows the camera to deliver independent, configurable streams for live viewing, recording, or remote monitoring via constrained bandwidths. Each of these streams can be adapted independently to deliver high quality video, perfectly tailored to purpose, while reducing bit rate by up to 90% compared to a standard camera.

H.265 high-efficiency video encoding

The camera is designed on the most efficient and powerful H.264 and H.265/HEVC encoding platform. The camera is capable of delivering high-quality and high-resolution video with very low network load. With a doubling of encoding efficiency, H.265 is the compression standard of choice for IP video surveillance systems.

Bitrate optimized profile

The average bitrate for the bitrate optimized profile using H.265 encoding in kbps for different frame rates can be found in the table provided below.

FPS at 8.3MP	Low activity	Medium activity	High activity
30	1632	2438	5335
25	1430	2143	4666
15	990	1494	3214
10	741	1123	2397
5	453	692	1458
3	316	485	1014

FPS at 8.3MP	Low activity	Medium activity	High activity
1	146	227	468

Notice

Actual bitrate values may vary depending on scene complexity/activity and picture settings.

Recording and storage management

Recording management can be controlled by the Bosch Video Recording Manager application, or the camera can use local storage and iSCSI targets directly without any recording software.

Local storage can be used for recording "at the edge" or for Automatic Network Replenishment (ANR) technology to improve the overall recording reliability. Pre-alarm recording in RAM reduces bandwidth consumption on the network and extends the effective life of the memory card.

Advanced edge recording

Advanced edge recording provides the most reliable storage solution possible due to the combination of the following functionalities:

- Dual SD cards that can be set up as either:
 - Mirrored, for redundant storage
 - Failover, for extended service intervals
 - Extended, for maximum retention time
- Industrial SD card support allows for extreme lifetime
- Health monitoring of industrial SD cards provide early service indications

Intelligent Video Analytics on the edge

The camera includes the latest release of the Intelligent Video Analytics application from Bosch. Specifically designed for the most demanding environments. It delivers the highest levels of accuracy for mission-critical applications such as perimeter protection of airports, critical infrastructures and government buildings, border patrol, ship tracking and traffic monitoring (e.g. wrong-way detection, traffic counts, monitoring roadsides for parked cars).

Intelligent Video Analytics is extremely resistant to false triggers caused by challenging environments with snow, wind (moving trees), rain, hail, and water reflections. It is ideal for providing automatic object detection over large distances.

The set-up of Bosch's video analytics is also second to none, which is great news for installers. Should your customer decide to use Intelligent Video Analytics, configuration and calibration couldn't be easier. Simply enter the height of the camera and the rest of the calibration is carried out by the video analytics itself based on information provided by the camera's built-in gyro sensor.

Camera Trainer

Based on examples of target objects and non-target objects, the Camera Trainer program uses machine learning to allow the user to define objects of interest and generate detectors for them. In contrast to the moving objects that the Intelligent Video Analytics application detects, the Camera Trainer program detects both moving and non-moving objects and classifies them immediately. Using Configuration Manager, you can configure the Camera Trainer program using both live video as well as recordings available through the respective camera. The resulting detectors can be downloaded and uploaded for distribution to other cameras.

A free of charge license is required to activate the Camera Trainer program.

DORI coverage

DORI (Detect, Observe, Recognize, Identify) is a standard system (EN-62676-4) for defining the ability of a person viewing the video to distinguish persons or objects within a covered area. The maximum distance at which a camera/lens combination can meet these criteria is shown below:

8 MP Camera with 3.9 mm - 10 mm

DORI	DORI definition	Distance 3.9 mm / 10 mm	Horizontal width
Detect	25 px/m	47 m / 190 m	154 m
	8 px/ft	147 ft / 594 ft	480 ft
Observe	63 px/m	19 m / 75 m	61 m
	19 px/ft	62 ft / 250 ft	202 ft
Recognize	125 px/m	9 m / 38 m	31 m
	38 px/ft	31 ft / 125 ft	101 ft
Identify	250 px/m	5 m / 19 m	15 m
	76 px/ft	16 ft / 63 ft	51 ft

Data security

Special measures ensure the highest level of security for device access and data transport. On initial setup, the camera is only accessible over secure channels and enforces a password. Web browser and viewing client access can be protected using HTTPS or other secure protocols that support state-of-the-art TLS 1.2 with updated cipher suites including AES encryption with 256 bit keys. No software can be installed in the camera, and only authenticated firmware can be uploaded. A three-level password protection with security recommendations allows users to customize device access.

Network and device access can be protected using 802.1x network authentication with EAP/TLS. Superior protection from malicious attacks is

guaranteed by the Embedded Login Firewall, on-board Trusted Platform Module (TPM) and Public Key Infrastructure (PKI) support.

The advanced certificate handling offers:

- Self-signed unique certificates automatically created when required
- Client and server certificates for authentication
- · Client certificates for proof of authenticity
- Certificates with encrypted private keys

System integration and ONVIF conformance

The camera conforms to the ONVIF Profile S, ONVIF Profile G, ONVIF Profile M, and ONVIF Profile T specifications. For H.265 configuration, the camera supports Media Service 2, which is part of ONVIF Profile T. Compliance with these standards guarantees interoperability between network video products regardless of manufacturer.

Third-party integrators can easily access the internal feature set of the camera for integration into large projects. Visit the Bosch Integration Partner Program (IPP) website (ipp.boschsecurity.com) for more information.

Universal accessories

A full line of universal accessories are available that allow a consistent design across different platforms and a wide range of installation possibilities. Several dedicated accessories are available that seamlessly fit to the camera and expand the different installation options over previous generations. Available options include: a clear or tinted replacement bubble, in-ceiling mounting kits, a surveillance cabinet with power and fiber optic options and different mounting options.

Technical specifications

Power	
Input voltage	PoE IEEE 802.3af / 802.3at Type 1, Class 3

Power		
Power Consumption	PoE: 7 W / 11.5 W	
(typical / maximum)		
Sensor		
Sensor type	1/1.8-inch CMOS	
Total sensor pixels	3840 x 2160 2.0 μm pixels, 8.3MP (approx.)	
Sensitivity		
Low-light technology	starlight	
Measured according to I	EC 62676 Part 5 (1/25, F1.6)	
Color	0.054 lx	
Mono	0.0098 lx	
Dynamic range		
Dynamic range (WDR)	HDR 120 dB	
Measured according to IEC 62676 Part 5	107 dB WDR	
Optical		
Lens	3.9 to 10 mm P-iris lens (IR corrected); F-stop 1.6 - 2.7	
Adjustment	Motorized zoom/focus	
Iris control	P-iris control	
Viewing angle	Wide: 117° x 62° (H x V); Tele: 44° x 24° (H x V)	
Platform		
Common product plat- form	CPP7.3	
Video streaming		
Video compression	H.265; H.264; M-JPEG	
Sensor modes	20 fps, HDR, 3840 x 2160 (8.3 MP) 25 fps, 3840 x 2160 (8.3 MP) 30 fps, 3840 x 2160 (8.3 MP)	
Streaming	Multiple configurable streams in H.264, H.265 and M-JPEG, configurable frame rate and bandwidth. Regions of Interest (ROI) Bosch Intelligent Streaming	
Camera latency	120 ms (8 MP, 30 fps)	

Video streaming		
GOP structure	IP	
Frame rate	1-30 fps	
Signal-to-Noise Ratio (SNR)	>55 dB	
Video resolution (H x V		
Supported resolutions	4K UHD 3840 x 2160, 7.2MP 3584 x 2016, 2.8MP (4:3) 1920 x 1440, HD 1080p 1920 x 1080, 1.3MP 1536 x 864, 1.3 MP (5:4) 1280 x 1024, HD 720p 1280 x 720, SD 432p 768 x 432, SD 480p (4:3) 720 x 480, VGA (4:3) 640 x 480	
Camera installation		
Mirror image	On / Off	
Rotate	0° / 90° upright / 180° / 270° upright	
Camera LED	Auto disable/Enable/Disable	
Positioning	Coordinates / Mounting height	
Camera view wizard	Motorized pan, tilt, roll, zoom, autofocus	
Video functions - color		
Adjustable picture settings	Contrast, Saturation, Brightness	
White Balance	2500 to 10000K, 4 automatic modes (Basic, Standard, Sodium lamp, Dominant color), Manual mode and Hold mode	
Video functions - ALC		
ALC	Mode (standard, fluorescent), Level, Average vs. peak, Speed, Maximum gain	
Exposure	Automatic Electronic Shutter (AES); Fixed shutter (1/25[30] to 1/15000) selectable Default shutter, Maximum shutter	
P-iris	Automatic/manual, priority	
Day/Night	Auto (adjustable switch points), Color, Monochrome	
Video functions - enhance		
Sharpness	Sharpness enhancement level selectable	
Backlight compensation	On/off	
Contrast enhancement	On/off	

Video functions - enhance		
Noise reduction	Intelligent Dynamic Noise Reduction with separate temporal and spatial adjustments	
Intelligent defog	Intelligent Defog automatically adjusts parameters for best picture in foggy or misty scenes (switchable)	
Video content analysis		
Analysis type	Intelligent Video Analytics, Camera Trainer	
Maximum IVA detection range	Wide: 4.72 m - 32.68 m (15.49 ft - 107.22 ft) Tele: 13.33 m - 130.87 m (43.73 ft - 429.36 ft) (depending on setup and scene)	
Configurations	Silent VCA / Profile 1/2 / Scheduled / Event triggered	
Alarm rules (combinable)	Any object, Object in field, Line crossing, Enter / leave field, Loitering, Follow route, Idle / removed object, Counting, Occupancy, Crowd density estimation, Condition change, Similarity search, Flow / counter flow	
Object filters	Duration, Size, Aspect ratio, Speed, Direction, Color, Object classes (4)	
Tracking modes	Standard (2D) tracking, 3D tracking, 3D people tracking, Ship tracking, Museum mode	
Calibration / Geolocation	Automatic, based on gyro sensor, focal length and camera height	
Additional functionalities	Tamper detection, Face detection	
Additional functions		
Scene modes	10 default modes with scheduler: Standard, Sodium lighting, Fast movement, Sensitivity boost, Dynamic backlight, Vibrant, Color only, Sports & Gaming, Retail, License Plate Recognition (LPR)	
Privacy Masking	Eight independent areas, fully programmable	
Display stamping	Name; Logo; Time; Alarm message	
Pixel counter	Selectable area	
Local storage		
Internal RAM	5 s pre-alarm recording	
Memory card slots	Dual SDXC/SDHC microSD card slots, up to 2TB.	
Dual SD-card slot configurations	Mirror (redundant storage)	

Local storage		
	Failover (extended service interval)	
	Extend (maximum retention time)	
	Automatic Network Replenishment	
Industrial SD cards	Extreme lifetime and health monitoring support that provides early service indication.	
Input/output		
Ethernet	Shielded RJ45	
Surge protection	Ethernet: 1 kV, 2 kA to ground (8/20 μs pulse)	
Fiber optics (sold separately)	The Fiber Optic Ethernet Media Converter kit (VG4-SFPSCKT) installed inside a Surveillance Cabinet (NDA-U-PA0, NDA-U-PA1 or NDA-U-PA2) provides the fiber optic interface to the mounted camera.	
Audio streaming		
Audio input	Built-in microphone (can be permanently disabled)	
Standard	G.711, 8 kHz sampling rate	
	L16, 16 kHz sampling rate	
	AAC-LC, 48 kbps at 16 kHz sampling rate	
	AAC-LC, 80 kbps at 16 kHz sampling rate	
Signal-to-Noise Ratio	>50 dB	
Network		
Protocols	IPv4, IPv6, UDP, TCP, HTTP, HTTPS, RTP/RTCP, IGMP V2/V3, ICMP, ICMPv6, RTSP, FTP, ARP, DHCP, APIPA (Auto-IP, link local address), NTP (SNTP), SNMP (V1, V3, MIB-II), 802.1x, DNS, DNSv6, DDNS (DynDNS.org, selfHOST.de, no-ip.com), SMTP, iSCSI, UPnP (SSDP), Diff-Serv (QoS), LLDP, SOAP, CHAP, digest authentication	
Ethernet	10/100 Base-T	
Interoperability	ONVIF Profile S; ONVIF Profile G; ONVIF Profile M; ONVIF Profile T	
Data security		
Crypto Coprocessor (TPM)	RSA 2048 bit, AES/CBC 256 bit	
PKI	X.509 certificates	
Encryption	Full end-to-end encryption with supported VMS Network: TLS1.0/1.2, AES128, AES256	

Data security	
	Local storage: XTS-AES
Video authentication	checksum, MD5, SHA-1, SHA-256
Mechanical	
Dimensions (D x H)	177 x 148 mm (6.97 x 5.83 in)
Weight	2051.45 g (4.52 lbs)
Mounting	Surface mount
Color	White (RAL9003)
Motorized PTR range	Pan: 0° to +361°; Tilt: -3° to +85°; Roll: -95° to +95°
Dome bubble	Polycarbonate, clear with UV blocking antiscratch coating
Housing	Aluminum with dehumidifying membrane and polycarbonate shell
Environmental	
Operating temperature	-20 °C to +55 °C (-4 °F to +131 °F) for continuous operation
Storage temperature	-30 °C to +70 °C (-22 °F to +158 °F)
Operating humidity	5% to 93% RH non condensing
Storage humidity	Up to 98% RH
Impact resistance casing and dome	IK10
Water/dust protection	IP5X, IP54 with NDA-8001-IP

Ordering information

NDV-8504-R Fixed dome 8MP HDR 3.9-10mm PTRZ

Fixed dome 8 MP PTRZ H.265 IVA NDAA compliant

Order number NDV-8504-R | F.01U.396.937

Accessories

NDA-8001-IP IP54 protection kit, 3 pcs

NDA-8001-IP IP54 protection kit, 3 pcs Order number NDA-8001-IP | F.01U.394.830

NDA-8000-CBL Clear replacement bubble

Clear replacement bubble.

Order number NDA-8000-CBL | F.01U.324.934

NDA-8000-TBL Tinted Bubble

Tinted bubble for FLEXIDOME IP 8000i. Order number **NDA-8000-TBL** | **F.01U.324.973**

NDA-8001-IC In-ceiling mount kit

In-ceiling mount kit for FLEXIDOME IP 8000i with microphone support

Order number NDA-8001-IC | F.01U.398.407

NDA-8001-PLEN Plenum-rated mount kit

Plenum-rated in-ceiling mount kit for FLEXIDOME IP 8000i with microphone support Order number NDA-8001-PLEN | F.01U.398.393

NDA-8000-SP In-ceiling mount support kit

Soft ceiling support for in-ceiling mount kit for FLEXIDOME IP 8000i.

Order number NDA-8000-SP | F.01U.324.937

NDA-8000-PIP Pendant interface plate, indoor

Pendant interface plate for FLEXIDOME IP 8000i and FLEXIDOME IP panoramic 6000/7000 outdoor.

Order number NDA-8000-PIP I F.01U.324.938

NDA-U-WMT Pendant wall mount

Universal wall mount for dome cameras, white Order number NDA-U-WMT | F.01U.324.939

NDA-U-PMT Pendant pipe mount, 12" (31cm)

Universal pipe mount for dome cameras, 31 cm, white Order number NDA-U-PMT | F.01U.324.940

NDA-U-PMTS Pendant pipe mount, 4" (11 cm)

Universal pendant pipe mount for dome cameras, 11 cm (4"), white

Order number NDA-U-PMTS | F.01U.385.046

NDA-U-PMTE Pendant pipe extension, 20" (50cm)

Extension for universal pipe mount, 50 cm, white Order number **NDA-U-PMTE** | **F.01U.324.941**

NDA-U-PSMB Pendant wall/ceiling mount SMB

Surface mount box (SMB) for wall mount or pipe mount. Order number NDA-U-PSMB | F.01U.324.942

NDA-U-PMAL Pole mount adapter large

Universal pole mount adapter, white; large Order number NDA-U-PMAL | F.01U.324.944

NDA-U-PMAS Pole mount adapter small

Pole mount adapter small

Universal pole mount adapter, white; small. Order number **NDA-U-PMAS | F.01U.324.943**

NDA-U-WMTG Pendant wall mount, gang box

Universal wall mount, compatible with gang box installation for fixed dome cameras only, white Order number **NDA-U-WMTG | F.01U.358.358**

NDA-U-PMTG Pendant pipe mount, gang box

Universal pipe mount, compatible with gang box installation for fixed dome cameras only, white Order number NDA-U-PMTG | F.01U.358.359
